THE OUTDOOR LIVING EXPERIENCE

Style for All Seasons

Our goal is to help you create the same feeling of comfort and personal expression outdoors, as you enjoy within your home. With an expert design sensibility and the ability to inspire, The Outdoor Living Experience specializes in “co-creating” uniquely personal living environments that will satisfy your vision and surpass your expectations.

The Value of Quality

Landscaped environments are transformed each season by the changing shapes and colors of plantings, trees and shrubs, so we design and build with the passage of time in mind. We take the time to test the soil and make amendments as needed, so our carefully selected plantings flourish. This attention to detail moves into all aspects of landscape installation. Our well-crafted borders, stonework and water features are attentively and professionally installed to ensure many years of lasting beauty.

Cultivating a Relationship

Collaborating with our clients throughout every phase of a project means The Outdoor Living Experience is able to provide the utmost in quality, comfort and style. Additionally, we guarantee our plantings for a year after installation and our workmanship for two years. Most importantly, if you have creative afterthoughts, it is our pleasure to see your vision fulfilled.

Colorado has over 300 days of brilliant sunshine throughout the year. Imagine spending more of them outside—in an ideal landscape just outside your door.

1. CONSULTATION

Our designer will meet you at your project site to explore, expand and refine design options. Conceptual plans begin to solidify as the designer understands your ideas, thoughts, needs and wishes.

2. DESIGN

A landscape plan, or outdoor living plan, provides a detailed tool to visualize and adjust your landscape before work begins, and will ensure a precise installation. The final plan is artistically rendered in full color to display foliage, water features, turf, walkways, decks, patios and specially designed landscape elements.

3. INSTALLATION

Once the final design has met your approval, our team of landscape professionals will ensure that your unique space is executed to perfection.
